#### What Meyer Says of Pearl Harbor.

Secretary of the Navy Meyer in his annual report says of insular Naval Stations:

Owing to the changed conditions, the past differences of opinion in regard to the establishment of a naval base in the Philippine Islands have been entirely overcome. The joint board has recently considered this important matter, including the whole strategic field of the Pacific, and has made a report recommending that we maintain a small docking and repair station at Olongapo, in the Philippine Islands, but that our main naval base in the Pacific Ocean should be established at Pearl Harbor, Hawaii.

This definitely disposes of any contention as to the locality for a repair station in the Philippines and enables us to concentrate effort on the building up of the naval base at Pearl Harbor and of the necessary defenses in connection therewith.

The joint board gave close attention to the various plans presented for establishing a naval station in Manila Bay, but finally decided that no location presented had the necessary natural advantages; that while a few could be made into suitable naval bases at great expense, the changed conditions in the Pacific made such expense unnecessary and undesirable. It was found that Olongapo was ideally situated, as far as natural advantages go, and that in confining its facilities to the use of the floating dock and smaller repair shops, its defense would not become one of serious moment.

The department desires to invite your favorable attention to the extreme desirability of developing the naval station party established at Guantanamo, Cuba. Certain facilities exist there, and a dry dock has been partly excavated, but funds are lacking to continue the building up of this important insular station.

With the opening of the Panama Canal the Caribbean Sea will become the scene of great commercial activity, and our responsibility as to the police and maintenance of the canal and our interest in the whole Caribbean region urgently call for an adequate naval repair base in that locality.

The naval base at Pearl Harbor, Hawaii, has been started under favorable appropriations and conditions, and it is hoped that the building up of this important station can be rapidly and economically carried on. Its importance and strategic value can hardly be over-estimated.

#### Moving Day at the North Pole.

By Lluella Gateson.

Confusion reigns in Polarland,  
Where Santa Claus holds sway;  
A hundred thousand million toys  
Are boxed to send away,  
And Mrs. Claus and Santa too  
Are worried half to death  
And have no time to eat or sleep,  
And scarce to draw their breath.  
While all the children cry and squall  
And fill the air with woe,  
For mortal men have reached the Pole,  
And Santa has to go.

The factory is miles around,  
And made of hardened snow,  
And all of Santa's helpers there  
Are little Esquimaux,  
Who paste and cut and saw  
To make a hobby horse, a sled,  
A book, a game, a Teddy bear,  
A little dolly's bed.  
They see to work so skillfully  
Throughout the Arctic nights  
Because the place is all equipped  
With patent "Northern Lights."

Now, strange as it may seem to you,  
Poor Santa Claus is shy,  
And so is Mrs. Santa Claus—  
I'm sure I can't tell why.  
So, though they love the children well  
And like to see them play,  
When grown-ups come too near to them  
The Clauses move away.  
And as there is no spot on earth  
Where men can never go,  
The planet Mars will be the future home  
Of "Claus & Co."

But though he soon will live on Mars,  
Up in the sky so blue,  
To children whom he loves on earth  
Old Santa will be true.  
And when next Christmas comes around  
He surely will appear,  
Though in an airship he will ride,  
Instead of sledge and deer.  
He'll leave his presents and be gone  
Before the peep of light,  
To bring good cheer to little ones  
And make their Christmas bright.

**INNER-PLAYER**  
The name adopted to describe exclusively the player action manufactured only by the Cable Company

An impromptu musicale is always possible when you have an **INNER-PLAYER** Piano.

Use it alone or to accompany other instruments. It is ready whenever you are.

When we say "**INNER-PLAYER** Piano", we do not mean any ordinary player piano. We refer to those made by The Cable Company—the *only* ones to which this title **INNER-PLAYER** properly applies.

These instruments have many special, patented features which you do not find in any other pianos containing player devices. And it is these features which enable you to play any composition with the human expression obtained when a skilled pianist plays by hand.

All you have to do with an **INNER-PLAYER** Piano is to operate the pedals and move three little levers. It is simplicity itself and yet you produce the most pleasing effects.

Call and we will place an **INNER-PLAYER** Piano at your disposal. You can then see for yourself how easy it is to play your favorite selections on one of these instruments.

**C. D. LUFKIN, Agent.**
